From Rusty Lacy and Rick Schill:

Perfect weather and perfect traction greeted 36 riders to the last CVOTC event of the year at the Lake Hauser ATV Park near Shelby, NC. Riders came from as far away as Va Beach and Atlanta to tackle the 9 sections and 3 loops on the creeks and hillsides of this popular local motor sports park on the banks of the Broad River. There were Jeeps, ATVs and side by sides going through mud holes and up rocky hillsides while trials riders attempted to clean their sections. No unexpected close encounters occurred.

Sections 1-3 were located in a small creek next to the entry road. Section 1 had riders going various routes up a rock faced waterfall. This made for a great spectator spot. Section 4,8 and 9 were rocky hillsides. Sections 5,6 and 7 were in a long creek gully on the back side of the property. You had to ride in the creek from one to the next.....fun. Edward Romney ,the trials master, did an excellent job. He had help from Gordon Boden, Rick Schill and others.

Most of the intermediate lines were considered easy, but there were a few that took enough points to separate the pack of 6 riders. Darris Smith made his intermediate debut, moving up from the novice class and rode very well. A detailed scoring report is coming shortly from the CVOTC truth keeper, Rick Schill.

The CVOTC year end meeting will take place at the Lacy farm in Axton, VA some time in February. Stay tuned for the date. But in the meantime, be thinking about what changes you would like to see in the club for 2019....rules, procedures, policies, officers, etc.

Speaking of officers, for the past 3 years your officers have been Rusty Lacy as president and Ed Beehler as secretary/treasurer. I think we have both run our course and it is time for new blood. The jobs are not that hard or time consuming, but after a few years, it's easy to fall in a rut and stay there. So be thinking about who would be good...and willing...to fill these shoes.

Now we look forward to the Lake Hauser results and year end point totals from Rick Schill.
