Yesterday's Trial was a success. Thanks to one and all who attended.

19 riders total, which also would have been a good turnout for Tobacco Row Mountain, and was just about the perfect maximum for the limited parking area. I was glad we did not have 30 riders show up.

Extra thanks to Trialsmasters Keen, Lacy, Lundsford, Schill, Barnette, O'Sullivan, & Francis (listed from oldest to youngest..... I think) for their opinions and advice on line selection!!! I think the Manhattan Project was completed with less cumulative brainpower.

It was drier when we laid out the sections. The permanent magic marker I used to mark the ribbons washed off 80% of the ribbons I marked by the time me, Barnette, and O'Sullivan put up cards. So some of the sections may have changed, from what wiser heads recommended due to my faulty memory and Mother Nature.

Since it was drier when we laid out the sections, I really thought the Intermediates and Sportsman would complain the sections were too easy. But just a little extra water fixed that potential complaint before it was spoken.

Extra special thanks to Heather (aka Merilee) Francis for attempting to herd the cats while collecting dues, riding fees, and getting the liability waivers signed before the riders meeting.

No injuries reported, no visible bloodshed on rocks, no bones or bodies were found when I rode the cleanup loop.

As I had hoped, several neighbors attended, and they all enjoyed it.

Details posted at end.
